Sundae Warmers

Pattern Kool: Sundae Warmers

Materials needed:

- 16" US 7 (4.5mm) circular knitting needle
- 16" US 11 (8.0mm) circular knitting needle
- 186+ yards* of Super Bulky weight yarn of your choice (I used Berroco Sundae).

* Depending on desired sizing, you may need more. I had 186 yards to work with, and they ended up with dimensions 15" circumference by 12.6" long.

Pattern:

This pattern is based on 15" circumference legwarmers. For a size that will fit you, measure the widest part of your calf, or wherever you want the legwarmers to sit at.

Knit up a gauge swatch with the 8.0mm needle, record number of sts / inch.

I had about 3.2 sts / in, and I needed 15" worth of stitches, so $3.2 * 15 = 48$ (or, [x]) stitches.

Whatever size you decide to knit, round the final number of stitches required to achieve your circumference, either up or down, to the closest number divisible by 6.

(Ex: $4.8 * 18 = 86.4$. Closest number divisible by 6 = 84, therefore: cast on 84 stitches).

Cast-on [x] stitches using a 16" 4.5mm circular needle.

*K4, P2, repeat from *

Do this for 6 rows.

On row 7, knit the pattern above onto a 16"

Sundae Warmers in Purple Berroco Sundae

8.0mm circular needle.

*K4, P2, repeat from *

Do this for 36 rows (or more - this is where you can expand the length as much as you want).

On the next row, knit the same pattern back onto the 16" 4.5 mm needle.

Knit the same pattern for 5 more rows after that (total of 6 rows on this smaller needle).

Pattern Kool: Sundae Warmers

Bind off.

Repeat for second leg warmer. ≈ TV

Hi! I'm a knitter from Toronto, ON. I enjoy designing cute, whacky knitwear. Read my blog & find more patterns at Knittravel.com. I also maintain TorontoKnits.ca.
